Education

University of Petroleum and Energy Studies (UPES)   *Aug 2023 – May 2027*
B.Tech in Computer Science, CGPA: 8.69/10.0

Loreto Convent Intermediate College   *May 2020 – May 2023*
Class XII: 90%   *Class X:* 95%

Experience

Software Engineering Intern (Founders' Intern)   *Jun 2025 – Aug 2025*
Grad Pilots
- **Designed and deployed** 4 destination pages with A/B tested layouts, boosting average user session time by **2 mins** *Gradpilots.com* ☍
- Researched CMS architectures and implemented a scalable WordPress blog system, streamlining content publishing.
- Resolved recurring bugs via Postman APIs, reducing downtime and improving efficiency by **15%**.
- Participated in end-to-end **software development** and dashboard design, improving reporting workflows
- Optimised on-page SEO (canonical tags, meta descriptions) across 500+ pages, driving **20% organic traffic growth**.

Tech/Operations Intern   *Feb 2025 – May 2025*
Project Clay
- Developed a WhatsApp messaging automator for 150+ clients using **Selenium WebDriver in Python**
- **Contributed to and refined** an AI mentor project using Langflow and the OpenAI API, improving prompt handling and response accuracy.

Social Internship   *Jun 2024 – Jul 2024*
Channv Foundation
- **Built a Python expense analyzer** to document and evaluate treatment costs for **15+ acid attack survivors**, improving accuracy and ease of record-keeping.
- **Constructed** NGO's website: JS, Tailwind, HTML. *github.com/kinjalsri/manthanwebsite* ☍

Projects

- **Virtual Study Room — Java, Swing, OOP**   *github.com/kinjalsri/Study-Buddy* ☍
  Applied **object-oriented programming** and contributed to **Software design** of a productivity app with a task tracker and player.

- **Disaster Alert Platform — React, Node.js**   *github.com/kinjalsri/CSA_Hackathon* ☍
  Launched a real-time disaster alert web app, integrating 3 APIs to deliver instant updates and showcasing a functional MVP within 24 hours at a Hackathon.

- **Cloud-Based To-Do Notifier — Java, Maven, AWS**   *github.com/kinjalsri/Cloud-Automation* ☍
  Automated email reminders using AWS Lambda + SNS, reducing manual follow-ups by 80% and ensuring 100% timely delivery.

Technologies and Skills

Languages: C, Java, Python, SQL, HTML, CSS, JavaScript
Frameworks/Tools: React.js, Angular, Selenium, Postman, WordPress CMS, VS Code, Google Colab, Figma, Latex
Cloud & Database: AWS, Azure dev, GCP, MySQL, MongoDB
Other Skills: Full-Stack Development, API Debugging, Data Scraping, Web Development, API Development, Software Design, Version Control, SEO Optimisation
Soft Skills: Team Collaboration, Technical Documentation, Event Management, Analytical Reasoning, Conflict Resolution

Certificates and Awards

- **AWS Academy Graduate** – AWS Academy Cloud Foundations
- Contributor at **Open Source Connect India**
- **Hackathons** - CSA Semifinalist (Top 10), Myntra Ideation Cleared

Leadership & Extra-Curricular

Secretary- ACM-W Student Chapter (UPES)
OC Member- Int'l Conf. on Machine Learning and Data Engineering
Social Media: Led blog/content in Cultural Committee
